## BOOK SYNOPSIS

LASIK for Technicians is an exciting, user-friendly text written with the entire office staff in mind. Innovative and concise, a variety of topics are covered including pre-counseling, testing, and assisting in surgery & complications. Having a wide knowledge base will assist staff in educating patients and assisting the surgeon in the clinic, as well as the operating room. This text allows the reader to gather and understand refractive errors and the various surgeries that are available to correct them. The author has also made it easy to learn the important concepts in LASIK surgery. Receptionists, patient counselors, and clinical & surgical assistants will enjoy the down-to-earth format of the text. No refractive surgery office should be without this great reference tool.
